MAY 2019 – PRESENT

- Looked after the web related work for the Developer Students Club, BVP.
- Helped in designing the website for DSC, BVP as well as developing the website.
- Made the backend for the website for one of the events organised by DSC, BVP

## EDUCATION

**Kulachi Hansraj Model School, Delhi** – 12<sup>th</sup>

2018

**Bharati Vidyapeeth College of Engineering, Delhi** – B.Tech

AUG 2018 – PRESENT

## TRAINING AND COURSES

**Machine Learning with Tensorflow on GCP** – Coursera

JAN 2019 – <https://coursera.org/share/8e469ee4adbddb7c2aa31fb6dd42d1af>

**Data Science Master Class** – Coding Blocks

MAY 2020 – <https://online.codingblocks.com/app/certificates/CBOL-112486-770e>

**AWS Specialization** – Coursera

JUNE 2020 – <https://coursera.org/share/58ba438c03566b18c01b9e293df7acdb>

## PROJECTS

**MemeTags** – [github.com/ShauryaAg/MemeTags](https://github.com/ShauryaAg/MemeTags)

- This project was meant to help people easily tag and hence, find the pictures stored in their phone

**Anon** – <https://github.com/ShauryaAg/Anon-Reporter>

- Anon is an online reporting platform that ensures the anonymity and legitimacy of the report.
- Any user can report an incident against them and we ensure the reports are as legit as possible through clever use of blockchain and ERC-20 Token transfers, whilst ensuring the anonymity of the reporter.

**Webathon-Backend** – [github.com/ShauryaAg/Webathon-Backend](https://github.com/ShauryaAg/Webathon-Backend)

- Developed the backend for DSC, BVP Webathon event using Django.

**Image\_Watermark** – [github.com/ShauryaAg/overlay-image](https://github.com/ShauryaAg/overlay-image)

- A small project to add a watermark to a bunch of images stored in a directory at once.

**Secure-Chat-App** – <https://github.com/ShauryaAg/Secure-Chat-App>

- A small chatting API that only sends the message to the person who is tagged in the message
