PROJECTS

Covid Vaccine Notifier

- This project, along with the frontend, allows users to signup for notification regarding availability of Covid-19 Vaccine in their region
- It checks for the availability of vaccines every 1.5 hours and sends an email if a vaccine slot is available.

Anon

- Anon is an online reporting platform that ensures the anonymity and legitimacy of the report.
- Any user can report an incident against them and we ensure the reports are as legit as possible through clever use of blockchain and ERC-20 Token transfers, whilst ensuring the anonymity of the reporter.

Webathon-Backend

- Developed an API for organizing online hackathons/events using Django.

MemeTags

- This project   was meant to help people easily tag and hence, find the pictures stored in their phone
